

Crossing Boundaries

EPPS

- 3 contact days
- Online packages through the Renal Society of Australasia (RSA)
- Work integrated/QI project

Participants

- Networking opportunity – rarely meet face to face
- Open to all departments

"People with kidney failure navigating the health system meet a range of professionals at different stages of their disease, however these health professionals rarely meet each other."

Area	Designation
7A Medical Specialties	2 RN
2A General Medical	1 RN
Hospital in the Home (HITH)	2 RN
10KW General Medicine & Respiratory	1 RN
Nephrology Services	4 RN
Community Nursing Services	2 RN
Department of Emergency Medicine	1 RN

What was behind the topic choice?

- Meet the same patients across our streams
- Found all participants engaged with similar patients or themes
- Experienced this further through day one patient journey case - Peter

How it went?

- Met learning outcomes
- Great projects across THS!
- Challenges
 - Content & presenters and relevance to all due to service areas
 - Venues
 - Online packages through Renal Society of Australasia

Projects

- "I Need a Holiday" Dialysis Patient information leaflet
- Interpreting blood results information for patients
- Peritoneal Dialysis Patient Education plan
- Renal Health resource folder for Community Nurses
- Fluid Balance Record: Visual Tool
- Arteriovenous Fistula Information Posters for Emergency Nurses
- Urinary Catheter Surveillance form
